

- **Temperature Sensing**
- **Humidity Sensing**
- **Application  
Engineering Support**

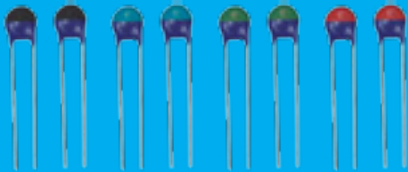

**Quality Sensors  
for Over 43  
Years**

*Precon by Kele Precision Manufacturing (KPM) has been a trusted brand name in building automation and precise sensor measurement and manufacturing for over 43 years. Our mission is to use our technical expertise and operational excellence to provide OEM customers with accurate, dependable products for various industries.*

**We specialize in providing products that sense humidity and temperature in Air, Liquids and on Surfaces such as:**

■ **NTC bare bead thermistors**

■ **NTC Thermistor and RTD Temperature Probes and Assemblies**

■ **Capacitive humidity sensors and probes**

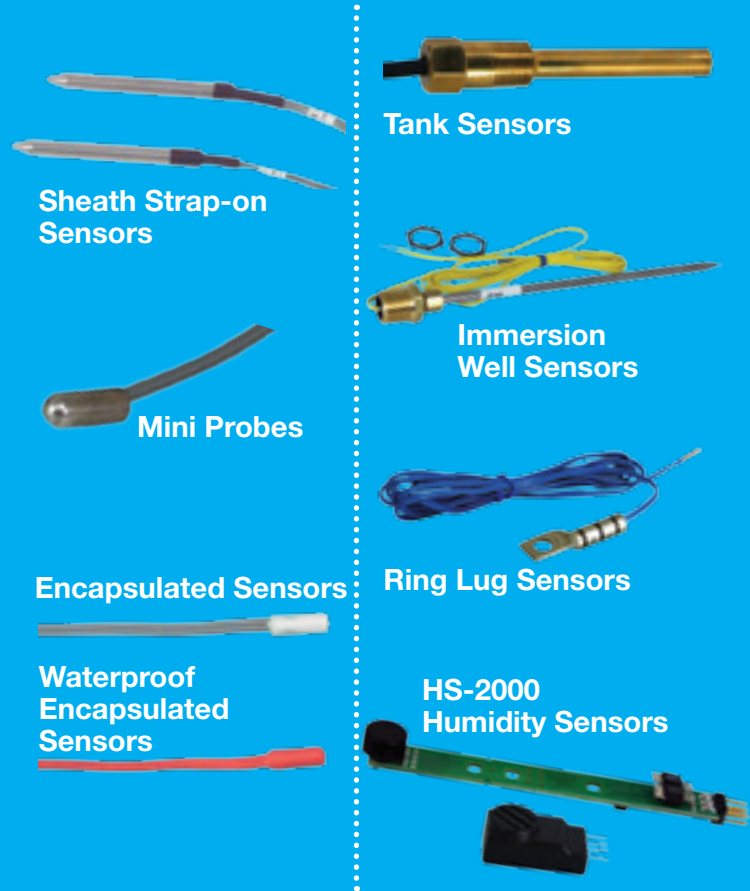

■ **Application Engineering Support**

**Kele Precision Manufacturing can provide custom temperature and humidity sensors and probes for demanding OEM applications such as:**

- HVAC/BAS OEM
- Pool/Spa and Hot Water/Boiler Systems
- Commercial Cooking Equipment
- Data Center Cooling
- Wine Storage
- Defense/Aeronautics
- Commercial Refrigeration
- Remote System Monitoring

Tank Sensors

Sheath Strap-on Sensors

Mini Probes

Encapsulated Sensors

Waterproof Encapsulated Sensors

Immersion Well Sensors

Ring Lug Sensors

HS-2000 Humidity Sensors

***Don't see it?  
We can make it!***

## Commitment to Quality:

- ISO9001:2000 compliant
- LEAN manufacturing standards
- U.L. Approved
- NIST Certifications
- Made in the USA- Meets ARRA Requirements

## Also available from KPM:

- Building Automation Panels
- Transducers
- Power Monitors
- Water Monitors
- Custom Control Panels
- Electro-mechanical assembly
