

OEM Gas Monitors and Transmitters

- **Reliable Industry Standard Sensors**
- **Carbon Monoxide, Oxygen and NO2**
- **Competitive OEM Pricing**
- **Broad Product Offering**
- **Standard and Custom Products**
- **Fast Turnaround**

A Commitment to Quality and Customer Service

With over ten years of supplying toxic gas sensing and measurement products Precon has the experience and volume production capacity to meet your OEM toxic gas sensing needs.

We offer competitive OEM pricing combined with reliable solid state and electrochemical technology sensors from the world's leading manufacturer's of gas sensors. Advanced electronics provide a choice of outputs, and ranges to match the application. Each of our units are calibrated in our state of the art gas calibration facility to insure accuracy. Choose from our standard products or get fast turnaround on the exact custom part you need.

- **Ventilation Systems**
- **Remote Monitoring**
- **Parking Garages**
